b) Meeting patient and service needs:

c) Developing the profession:

d) Dissemination methods and timeline:

FOR INFORMATION

Supplementary Information

The Education Awards Panel is keen to promote the [CSP's Research Priorities](#). If your application addresses one or more of the top 10 Research Priorities, please let us know by ticking the appropriate question(s) below.

NB: this information will be used by the Education Awards Panel to demonstrate how it is supporting dissemination and implementation of CSP's Research Priorities. The information you supply will not affect the outcome of your application.

- 1. When health problems are developing, at what point is physiotherapy most/least effective for improving patient results compared to no physiotherapy? What factors affect this?
- 2. When used by physiotherapists, what methods are effective in helping patients to make health changes, engage with treatment, check their progress, or manage their health after discharge?
- 3. What are the best ways to deliver physiotherapy services to meet patients' needs and improve outcomes for patients and services?
- 4. To stop health problems occurring or worsening, what physiotherapy treatments, advice or approaches are safe and effective? Where more than one treatment/approach works, which work best and in what dose?
- 5. What are patients' expectations regarding recovery, how do these compare to physiotherapists' views and, where recovery is not possible, how is this managed?
- 6. How does waiting for physiotherapy affect patient and service outcomes?
- 7. What parts of physiotherapy treatments cause behaviour change or physical improvement?
- 8. What approaches are effective for enabling parents, relations or carers to support physiotherapy treatment or to help patients to manage their own health problem?
- 9. How is patient progress and/or the results of physiotherapy treatment measured? How is service performance measured and checked?
- 10. How can access to physiotherapy be improved for groups who have reduced access?
- 11. None of the above. Please explain reasons for this below:

The CSP Charitable Trust will use the information you have supplied on this form to process your funding request and to contact you regarding the application. Please refer to the [CSPCT's Privacy Notice](#) for further information.
